To Whom It May Concern:

First, we want to express our gratitude to Russ McMillan and Triad Wealth Systems for giving us the opportunity to view an amazing option for our money and life dreams, whereby we never thought possible. This isn't the typical process, as we had been told by a good friend, whom we trust greatly and who is also highly successful. We kept an open mind and were on the edge of our seats quite quickly, as we desired to learn more about what seemed to be a hidden "diamond in the rough."

Russ is highly knowledgeable with finances, wealth, keeping money in motion and planning for a better life. Russ has been a joy to work with and the entire process has been quite an eye opener. We have realized our goals and dreams are a small step away. These strategies are quite in depth in the beginning but believe us, they are becoming well worth it, as our plan is falling into place and within reach.

Until we met Russ, our money was scattered in several places, mutual funds weren't growing at the rate we desired, and rental properties were becoming a great part of our life but to the point we needed to be our own bank and not rely on banks or hard money lenders. Our financial future, as well as our children's is very important to us, and we strive to have the ability to spend the money we make yet be completely secure for retirement. This concept is like no other and we are just so grateful to Russ. Thank you again Russ. Here's to an amazing financial future!

Sincerely,

Eric and Amy Post
