TRIAD Wealth Systems

Dear Russ,

Paula and I along with our children Rick Jr., Regan, Riley and Riva want to thank you and the entire TRIAD Wealth Systems staff for guidance in establishing and implementing our Family Legacy. We are approaching one year since our initial meeting in your office. During that first meeting you explained the principals of the Velocity of Money and that one of your goals was to assist us in increasing our family wealth without any additional out of pocket cost by us. We believed in you and trusted you, after many discussions and brain storming meetings, reviewing strategies and implementing the plan we can say for certain there has been no additional spending on our part. You and your staff have lived up to each and every goal you set out for our family.

Russ, you have also delivered above our expectations in the areas of direction for updating our Trusts, Wills, and Tax Planning. The professional tax advisors and attorneys that you have recommended and work with have met our needs.

We look forward to a long term relationship with you and all your professional associates. As you have said this is not a short term exercise rather a life long process that if done correctly will last for many generations. We truly believe this and as parents of four healthy children ages 22, 20, 18, and 16 our goal continues to be to lead and educate them so the chain is not broken for them, grandchildren and beyond.

We appreciate the books you have provided to expand our knowledge in the area of wealth building and privatized banking principles. The reading has been interesting and truly changed the way we look at life going forward. We have provided these books to our four children who range from junior in high school to senior in college, they too have benefited from the concepts and have expressed concern as to what direction our society is headed and what they need to do to have and maintain a competitive edge.

Russ, you are a true professional and first class individual that we are proud to call a friend.

Sincerely,

Rick G. Post Sr.
